第三十卷 不一样的你

Oh yeah I remember now.
Hilary says that Chieko Sug
died of tuberculosis.

At this time, His sickness
seems to be pretty strong.

why? he has such a painful
frown yet he's smiling
like nothing's wrong...

If you're fine,
then let's go inside.
It's cold out here.

Um, please
don't tell
anyone else.

Could it be that
even to this extent
the others still don't
know about it?

You...

He kept it
hidden from
them?

"He actually said something along the lines of 'eat your obscenity' since that was the way honorable people committed suicide

I've started going to the market again! But the air doesn't make me feel good, and it's actually a pretty fun job.

Let's go!

Although I'm not very familiar with tuberculosis, I wonder if there's something that can help her enough and make it a little bit better.

Excuse me, do you have any Penicillin?

Soji!

What are you doing here?

Xiao Yui! Are you here to buy candy tea?
